

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently amended) A composition comprising methyl salicylate, methyl nicotinate and L-arginine in a pharmaceutically-acceptable topical vehicle.
2. (Currently amended) The topical composition of Claim 1, further comprising an ingredient selected from the group consisting of yohimbe, muira puama extract, catuaba extract, maca extract, saw palmetto, menthol and mixtures thereof.
3. (Original) The topical composition of Claim 2, wherein said composition comprises methyl nicotinate, yohimbe, L-arginine, muira puama extract, catuaba extract, maca extract, saw palmetto, nettles and zinc.
4. (Currently Amended) The topical composition of Claim 2, wherein said composition comprises methyl nicotinate, L-arginine, muira puama extract, catuaba extract, maca extract, nettles, menthol and zinc.
5. (Currently Amended) A composition for topical administration to a mammal comprising,
  - a. between about 0.1% and about 5% methyl nicotinate,
  - b. between about 5 drops and about 50 drops of an alcohol extract of yohimbe extract,
  - c. between about 0.3% and about 1.5% L-arginine;
  - d. between about 1 drop and about 30 drops of an alcohol extract of muira puama extract per four ounces of composition,

- e. between about 1 drop and about 30 drops of an alcohol extract of catuaba ~~extract~~ per four ounces of composition,
  - f. between about 1 drop and about 30 drops of an alcohol extract of maca ~~extract~~ per four ounces of composition, and
  - g. between about 1 drop and about 30 drops of an alcohol extract of saw palmetto ~~extract~~ per four ounces of composition
- in a pharmaceutically-acceptable topical vehicle.
6. (Original) The composition of Claim 5, wherein the pharmaceutically-acceptable topical vehicle is a lotion comprising aloe and vitamin E.
7. (Original) A condom having an internal surface coating comprising a topical composition of Claim 5.
8. (Currently Amended) A composition for topical administration to a mammal comprising, per ounce,
- a. about 1% methyl nicotinate,
  - b. about 25 drops of an alcohol extract of yohimbe extract,
  - c. about 8mg/cm<sup>3</sup> of L-arginine,
  - d. about 12 drops of an alcohol extract of muira puama ~~extract~~,
  - e. about 12 drops of an alcohol extract of catuaba ~~extract~~,
  - f. about 12 drops of an alcohol extract of maca ~~extract~~, and
  - g. about 12 drops of an alcohol extract of saw palmetto ~~extract~~
- in a pharmaceutically-acceptable water-based topical vehicle comprising aloe and vitamin E.

9. (Currently Amended) A composition for topical administration to a mammal comprising,
  - a. between about 0.1% and about 5% methyl nicotinate,
  - b. between about 0.3% and about 1.5% L-arginine;
  - c. between about 1 drop and about 30 drops of an alcohol extract of muira puama extract,
  - d. between about 1 drop and about 30 drops of an alcohol extract of catuaba extract, and
  - e. between about 1 drop and about 30 drops of an alcohol extract of maca extract,in a pharmaceutically-acceptable topical vehicle.
10. (Original) The composition of Claim 11, wherein the pharmaceutically-acceptable topical vehicle is a lotion comprising aloe and vitamin E.
11. (Currently Amended) A composition for topical administration to a mammal comprising,  
per ounce,
  - a. about 1% methyl nicotinate,
  - b. about 8mg/cm<sup>3</sup> of L-arginine,
  - c. about 12 drops of an alcohol extract of muira puama extract,
  - d. about 12 drops of an alcohol extract of catuaba extract, and
  - e. about 12 drops of an alcohol extract of maca extract,in a pharmaceutically-acceptable water-based topical vehicle comprising aloe and vitamin E.
12. Cancelled.
13. (New) A composition comprising methyl nicotinate, methyl salicylate and at least one of L-arginine and menthol in a pharmaceutically-acceptable vehicle suitable for topical administration to a mammal.

Application Serial No. 10/775,574  
Amendment dated August 14, 2006  
Reply to Office Action mailed February 14, 2006

14. (New) A composition suitable for topical administration to a mammal comprising methyl nicotinate and arginine in a pharmaceutically-acceptable vehicle comprising citrus grandis (grapefruit) seed extract.
15. (New) A composition comprising methyl nicotinate, methyl salicylate, L-arginine and menthol in a pharmaceutically-acceptable vehicle suitable for topical application to a mammal.
16. (New) The composition of Claim 15, wherein the vehicle comprises at least one of aloe vera and helianthus annus (sunflower) seed oil.
